

GENERAL INFORMATION

Rite-Edge aluminium edging is the number one choice for both the DIY and Professional Landscaper in the selection of a product for garden edging. Manufactured in architecture grade aluminium, Rite-Edge is the obvious choice for neat, aesthetically pleasing, lawn, flowerbed and border edging. The key properties of aluminium enable Rite-Edge to be light yet strong, extremely durable but also flexible enough to be easily shaped to form beautiful smooth classic lines.

APPLICATIONS

Rite-Edge can be used in a variety of applications from separating lawns from bed areas or as a bed divider separating mulch from flower beds. It can also be used in conjunction with gravel to be used as pathway edging or as a maintenance edging around the perimeter of a building.

INSTALLATION

Rite-Edge has a unique patented telescopic design making installation fast and simple. On the inner side of the Rite-Edge, there are pockets, which are used to locate the stakes that secure the edging into the ground, being of a barbed design the stakes hold the edging in a permanent position.

SPECIFICATION

MATERIAL	Aluminium	THICKNESS	4.5mm	LINEAR METERS PER PACK	34m
ALUMINIUM SPEC	6061 T-6 Hardness	MINIMUM RADIUS	0.6mm	PIECE WEIGHT	26.4kg
FINISH	Natural	PIECE LENGTH	2.4m	JOINING METHOD	Overlap Joint
PIECES PER PACK	12			FIXING METHOD	Stakes
