INTRODUCTION

RITE EDGE SUPERIOR ALUMINIUM LANDSCAPE EDGINGS

- Based in Hull, East Yorkshire, Rainbow Professional specialise in the manufacture and distribution of a wide range of environmentally friendly landscape products including Rite Edge.
- Rite Edge is a high quality and durable solution for lawn edging, garden edging, landscape edging and more. RITE EDGE is manufactured from an Aircraft Grade Aluminium Alloy designed to last at least 27 years, so no painting, staining, rusting, or replacing to worry about.

WHY CHOSE ALUMINIUM EDGING?

THE EVOLUTION OF ALUMINIUM:

- **Durable:** Create a high quality finish, lasting up to 30 years.
- **Maintenance Free:** Save hours of maintenance work on maintaining crisp garden edges.
- **Light weight:** save radically on your installation time and costs.
- **Flexible:** Enables clever designs, with sharp curves or neat straight lines.
- **Simple installation:** Sections slide together due to telescopic design, or flush joiners
- **Safe:** Rounded tops with no sharp edgings, making it safe for children

RITE EDGE

Designed by landscape architects, our multi award winning RITE EDGE is increasingly specified in professional landscape designs as the obvious edge for lawns, borders, beds and pathways alike, keeping that pristine neat garden appearance with perfect straight, corners and enviable curves and shapes.

SUITABLE APPLICATIONS:

- Artificial Grass
- Tree Circle
- Flower Bed
- Landscape Bed
- Maintenance Strip

EASY INSTALLATION:

1. Dig Trench
2. Form the Rite Edge to your desired shape
3. Check the exact height
4. Add fixing stakes
5. Back fill the sides

RITE L EDGE

Welcome to an easier life with Rite L Edge aluminium landscape edging system. Rite L Edge is a heavy duty 'L' shaped section extruded from durable aluminium 6063 alloy and is the first choice in metal landscape edgings for specifiers and contractors due to its versatility, strength, speed of installation and cost effectiveness. Available in a variety of depths the use of Rite L Edge aluminium will enhance any project.

SUITABLE APPLICATIONS:

- Asphalt Surfaces
- Aggregate Walkway
- Resin Bonded
- Safety Bound
- Sports Surface
- Brick Paver
- Green Roof

EASY INSTALLATION:

1. Evacuate Site
2. Install sub base to required depth
3. Create levelling layer
4. Fix landscape edging
5. Install top surface

RAGLEY HALL

- Ragley Hall is the family home of the 9th Marquess and Marchioness of Hertford and their children. This magnificent Hall is located at the heart of the Ragley Estate in Warwickshire, one of the Midlands's most beautiful counties.
- Within the formal garden areas Rite Edgenhas been used to create a clear definition between gardens and pathways. The versatility of Rite Edge enabled corners, curves, bends and straight edges to be achieved with the minimum of effort complementing what a truly wonderful garden.

FRANCE

- France is one of the many European countries where landscapers and gardeners are making use of Rite Edge to create formal gardens where the clean crisp lines of lawns and borders are used to enhance the appearance of their garden projects. Switzerland, Germany, Holland and France are leading the way with the drive to create the 'English Garden' look.
- Rite Edge was offered due to all the benefits of simplicity of installation, a professional appearance, a maintenance free future and all at a realistic cost.

ST JOHN'S WOOD CHURCH

CASE STUDY

- St. John's Wood church and burial grounds are located next to Lords cricket ground and just north of Regents Park in the heart of London. The St. John's Wood burial ground dates back from 1807 with the church and burial grounds consecrated in 1814. The burial ground was used from 1814 to 1855 when the St. Marylebone cemetery at East Finchley was opened. There are thought to be some 50,000 graves at the site. The current grounds as seen today date from the 1950's when the gravestones were removed from the three main lawn areas and forms part of the Westminster City Council gardens.
- All the flower beds within St John's Wood Burial Grounds have been edged with Rite Edge enabling the gardening team to create clear and defined lines between the flower beds and the magnificent lawn areas.

WAPPENBURY HALL

- Wappenbury Hall built in 1894 is a large Edwardian property in its own attractive grounds to the northeast of the core of the village of Wappenbury, near Leamington Spa, Warwickshire.
- The Hall is very well recognised, and Rite L Edge has been used to edge the entire formal driveways and paths within the grounds of the hall. The use of the Rite L Edge has now added formality and clarity to all the driveway edges and provides the perfect retainer for the decorative driveway.

MORECAMBE BAY SEAFRONT

CASE STUDY

- The town of Morecambe is situated on the North West Coast of England with its charming promenade offering magnificent views over the bay and uplands of the Lake District. The town originally grew in the late 19th and early 20th centuries as a popular seaside resort with its promenade offering visitors a clean, flat, accessible area perfect for a stroll along the seafront.
- Rite L Edge has been used to edge the pathways at Morecambe Bay Seafront. The use of the Rite L Edge has created that neat, just-edged look.

IMPERIAL WHARF

- Imperial Park with its river walkway and sensory gardens was the first riverside public park of its size to be completed in London for many years. It is situated in one of the most sought after locations on the north bank of the River Thames, adjacent to Chelsea Harbour. The 10 acre landscaped parkland consists of a tree lined avenue, extensive grass area, formal planting, boating lake and children's play area.
- Rite L Edge was offered as the perfect solution to create pathways through out the imperial wharf as it offers the benefit of being safe, this is because it has a rounded top design, which makes it safe for use in public spaces especially children's play areas.
